Coming Together to Make Sure We're not Missing Out!

There are over 60 groups in our U3A, all meeting regularly to enjoy different things together, and coming together monthly, usually for a lighthearted presentation on a wide range of subjects. (All for just one annual membership fee of course - currently £25 until September!)

We all came together in Lychpit recently to have a good chat about our future, and make sure that we continue to run the activities people want. We soon discovered that quite a few members had forgotten about our BCOT Luncheon Group for example and it was great to hear everyone exchanging ideas with friends they don't see quite so often.

Some members brought a friend with them to see what's on offer do before joining, and we're planning several other get-togethers like this.

Keep an eye out for us or get in touch for details.

Some of Us Prefer A Good Discussion Best!

Many of us come together to enjoy sports such as football, cycling, table tennis and badminton - to name but a few. Others dance, sing, or garden - yet more enjoy a wide range of games from quizzing to scrabble, bridge to skittles. And our creative members write, paint, photograph, sew, knit and arrange flowers together.

However, many of our members also have slightly more academic interests and want to learn a new language (French, German, Spanish or Latin anyone?) Or work on their Family History together. Others like nothing better than a good debate, and we really do offer a good range of learning if you want it - Science & Technology, the Environment, Philosophy, Art History, Biography, Film Studies, History and Poetry at present. And if you have a different special interest, we can try to help you set up a new discussion group of your own - that's what our U3a is all about. Come and enjoy summer with us!
